The "Iron Man" Edge State of the art design delivers special standard features:

Polyurethane Drive System:

- Eliminates the need to load coil prior to transportation (less material waste).
- Rollforms up to 24 gauge steel.
- Eliminates slippage from cold weather and condensation.

Chrome Plated Steel Forming Rollers

- Rollforms all standard metals with minimal or no adjustment.
- Free-floating forming rollers produce less pressure and allow for more product uniformity

Electrical and Control System

- Push button control safety wiring
- Entry and exit control selector switch (jog/run)
- 3/4 HP, 110 Volt, Single Phase Motor, 13.6 Ampere

Welded Structural Steel Frame

Modular Turnstile Upright System

2 Year Parts & Labor Warranty
