**Spin Coil Cradle**

**Turnstile Reel Stand**

*Versatile.....Innovative.....Dependable.....Profitable.....The Original.*

### **Polyurethane Drive System:**

- Eliminates the need to load coil prior to transportation (less material waste).
- Rollforms up to 24 gauge steel.
- Eliminates slippage from cold weather and condensation.

### **Stainless Steel Forming Rollers**

- Rollforms all standard metals with minimal or no adjustment.
- Free-floating forming rollers produce less pressure and allow for more product uniformity

### **Electrical and Control System**

- Power interruption safety circuit.
- Entry and exit end push buttons for jog & run.
- 3/4 HP, 110 Volt, Single Phase Motor, 11 Amps
- Requires 10GA, 15 Amp Extension Cord

### **Welded Structural Steel Frame**

### **Modular Turnstile Upright System**

### **Limited Warranty**

- 3 Year Parts, 1 Year Labor.
- Lifetime separation on drive rollers.
- Lifetime on stainless steel forming rollers.
